PREFACE.

This, the first issue of our series of Cities Directory is entirely n home production, and the work connected herewith has given employment to a number of persons, and retained within the Province some thousands of dollars.

The increasing prosperity of Victoria and Nanaimo is most encouraging, indicative of the general prosperity of the whole Province. The work contained in the following pages is presented to the public with the full confidence that, as a purely local work it will be appreciated and receive the liberal support that a Provincial industry of its nature should receive. To most carefully insure an accurate Directory, in addition to our own checking of the names and information, Mr. W. K. Bull and Mr. J. A. Halliday have examined the work critically, as shown by the following:

VICTORIA, January, 1890.

This is to certify that I have examined the Williams' Cities Directory, 1890, and find it as near correct as possible.

W. K. BULL,
Accountant and Tax Collector,
Victoria City.

VICTORIA, January, 1890.

This is to certify that I have carefully examined this Directory and find it very complete, and as far as possible free from errors.

J. A. HALLIDAY.
Principal Boys Public School.

BROAD AND GOVERNMENT STREETS,
Victoria, B. C., January 1890.

Entered according to Act of Parliament of Canada in the year one thousand eight hundred and ninety, by R. T. WILLIAMS in the Office of the Minister of Agriculture at Ottawa.

COPYRIGHTS IN CANADA.

Copyrights may be secured by any person domiciled in Canada, or any part of the British possessions, or being a citizen of any country having an International Copyright Treaty with the United Kingdom, who is the author of any book, map, chart, musical composition, or of any original painting, drawing, design, &c., upon the following conditions:—The books, maps, &c., must be published in Canada; and in the case of a work of art, it must be produced in Canada, either prior to or simultaneously with its production elsewhere. Two copies of books, maps, &c., must be sent to the Minister of Agriculture; and in the case of paintings, statuary, &c., a written description of the same must be furnished.

The fee for registering a Copyright is one dollar, and it runs for twenty-eight years. It may also be renewed for a further term of fourteen years upon the same conditions.

An Interim Copyright may be obtained, pending the publication of any literary, scientific or artistic work, by depositing in the Office of the Minister of Agriculture a copy of the title, or a description of such work. The Interim Copyright runs for one month, and the fee is fifty cents. The work, however, must be published inside the time specified, or the author incurs a penalty not exceeding one hundred dollars.

The penalty for infringing a Copyright is the forfeiture of every copy of the work to the owner of the Copyright, and the payment of a fine not less than ten cents, nor more than one dollar, for every copy found in possession.

List of Mayors, Municipalities and Reeves in the Province.

MAYORS.

Nanaimo, M Bate
New Westminster, J C Brown
Vancouver, David Oppenheimer
Victoria, John Grant

PROVINCIAL GOVERNMENT LANDS.

Crown Lands in British Columbia are classified as either surveyed or or unserveyed lands, and may be acquired either by record and pre-emption, or by purchase.

Pre-emptions.

The following persons may record or pre-empt Crown lands, viz: Any person being the head of a family, a widow, or a single man over 18 years of age, being a British subject; may record surveyed or unsurveyed Crown lands which are unoccupied, unreserved and unrecorded.

Aliens may also record such surveyed or unsurveyed lands, on making a declaration of intention to become a British subject.

The quantity of land which may be recorded or pre-empted is not to exceed 320 acres northward and eastward of the Cascade or Coast Mountains, or 160 acres in the rest of the Province.

No person can hold more than one pre-emption claim at a time. Prior record or pre-emption of one claim, and all rights under it, are forfeited by subsequent record of pre-emption of another claim.

Land recorded or pre-empted cannot be transferred or conveyed till after a Crown grant has been issued.

Such land, until the Crown grant is issued, is held by occupations. Such occupation must be a bona fide personal residence of the settler or homestead settler, or his family or agent. Indians or Chinese cannot be agents.

The settler must enter into occupation of the land within thirty days after recording, and must continue to occupy it.

Continuous absence for a longer period than two months consecutively, of the settler or homestead settler, and his agent or family, is deemed cessation of occupation; but leave of absence may be granted not exceeding four months in any one year, inclusive of the two months' absence.

Land is considered abandoned if unoccupied for more than four months in the aggregate in one year, or for more than two months consecutively.

If so abandoned, the land becomes waste land of the Crown, without any cancellation of the record.

The fee on recording is two dollars.

The settler may either have the land surveyed at his own instance, subject to rectification or boundaries), or wait till the Chief Commissioner causes it to be surveyed.

After survey has been made, upon proof, by declaration in writing to himself and two other persons, of occupation from date of pre-emption, and of having made permanent improvements on the land to the value of two dollars and fifty cents per acre, the settler, on producing the pre-emption certificate, obtains a certificate of improvement.

After obtaining the certificate of improvement and paying for the land, the settler is entitled to a Crown grant in fee simple. He pays five dollars therefor.

Erskine's Boot and Shoe Emporium, 132 GOVERNMENT, STREET, CORNER JOHNSON VICTORIA, B. C.

52 GOVERNMENT STREET, NEXT TO BANK OF B. C.

Albion Iron Works Co., L'd, OFFICE and WORKS, Store St.
W. F. Bullen, Manager.
ENGINEERS, BOILER MAKERS AND SHIP BUILDERS.

Payment for Land and Crown Grants.

The price of Crown lands pre-empted, is *one dollar* per acre, which may be paid in *four equal instalments*, as follows—First instalment, two years from date of record or pre-emption, and each other instalment yearly thereafter, until the full amount is paid. But the last instalment is not payable till after the survey.

The Crown grant excludes gold and silver ore, and reserves to the Crown a royalty of five cents per ton on every ton of merchantable coal raised or gotten from the land, not including dross or fine slack. It also reserves to the Crown, since the 7th April, 1887, all timber on the land, except for domestic purposes. A pre-emptor, however, can obtain a license to cut the timber of his pre-emption on payment of dues at the rate of twenty-five cents per 1,000 feet board measurement.

No Crown grant can be issued to an alien who may have recorded or pre-empted by virtue of his declaring his intention to become a British subject, unless he has become naturalized

The heirs or devisees of the homestead settler are, if resident in the province, entitled to the Crown grant, on his decease.

If they are absent from the province at the time of his death, the Chief Commissioner may dispose of the pre-emption, and make such provision for the person entitled thereto, as he may deem just.

Pre-emption for Partnership Purposes.

Partners, not exceeding four, may pre-empt as a firm 160 acres each west of the Cascades, to each partner, and 320 acres east of the Cascades, to each partner.

Each partner must represent his interest in the firm by actual residence on the land, of himself or agent. But each partner, or his agent need not reside on his particular pre-emption.

The partners, or their agents, may reside together on one homestead, if the homestead be situated on any part of the partnership pre-emption.

For obtaining a certificate of improvement, it is sufficient to show that improvements have been made on some portion of the claim, amounting in the aggregate, to two dollars and fifty cents per acre on the whole land.

MINING LAWS.

Free Miners.

"Free Miners" only can have right or interest in mining claims or ditches. A "free miner" must be over 16 years of age. His certificate may be for one year ($5), or three years (15), and is not transferable. He may enter and mine Crown lands, or, on making compensation, lands occupied for other than mining purposes. To recover wages, must have free miner's certificate.

17 TO 19 WORK STREET, - - - - - VICTORIA, B.C.

Richardson and Horner, DRY GOODS, MILLINERY AND DRESS MAKING,
COMMERCIAL STREET, NANAIMO.

Record, &c., of Claims.

Claims must be recorded ($2.50), and re-recorded ($2.50). Time allowed for record is three days after location, if within ten miles of office —one additional day for every additional ten miles, or fraction thereof. In very remote places, miners, assembled in meetings, may make valid rules temporarily. Transfers of claims or mining interests must be in writing and registered. Free miners may hold any number of claims by purchase, but only two by pre-emption, except in certain cases. Claims may be officially laid over, and leave of absence granted in certain cases, but the rule is that every full claim or full interest must be worked either by owner or agent. A free miner can, by record, get a fair share of water necessary to work claim. A claim is deemed open if unworked for 72 hours on working days, unless for sickness or other reasonable cause.

Nature and Size of Ordinary Mining Claims.

Claims, as far as possible, are rectangular and must be staked by post or tree. Sizes are, "bar diggings," 100 feet wide at high-water mark, and thence extend into the river at its lowest water level. "Dry diggings" 100 feet square. "Creek claims" 100 feet long, measured in the direction of the general course of the stream, and shall extend in width from base to base of the hill or bench on each side, but when the benches or hills are less than 100 feet apart the claim shall be 100 feet square. "Bench claims" 100 feet square. "Hill claims" base line fronting a stream 100 feet—parallel side lines at right angles thereto at summit of hill. Posts 100 feet apart. Claims not to come within 100 feet of any gulch or tributary of creek. Measurements horizontal, irrespective of surface inequalities.

Discoverers Claims.

To one discoverer, 300 feet in length. To two discoverers, 600 feet in length. To three, 800 feet in length. To four, 1000 feet in length, and to each member of a party beyond four in number, a claim of the ordinary size only.

A new stratum of auriferous earth or gravel situated in a locality where the claims are abandoned, shall, for the above purposes, be deemed a new mine, although the same locality shall have been previously worked at a different level; and dry diggings discovered in the vicinity of bar diggings shall be deemed a new mine, and vice versa. A discoverer's claim shall be reckoned as one ordinary claim.

Creek discovery claims shall extend 1000 feet on each side of the centre of the creek, or as far as the summit.

Leave of Absence.

On discovery of new lode or vein containing minerals, six months. On proving expenditure, in cash, labor, or machinery, of $1,000 on each full interest (without reasonable return) one year. Under other conditions Gold Commissioner has option.

——VICTORIA CRESCENT, NANAIMO.——

Mineral Claims.

"Mineral claims,"—that is, claims containing, or supposed to contain minerals, precious or base (other than coal), in lodes or veins, or rock in place—shall be 1,500 feet long and 600 feet wide, and, as nearly as possible, in rectangular form. Must have three posts (or tree posts) at equal distances along centre line, with a notice on each. Only one claim on the same lode or vein can be held, except by purchase. Quartz claims are deemed to be mineral claims.

To lawfully hold a Crown grant for a mineral claim, it must be surveyed by a surveyor approved by the Land Office; notice of application for the grant must be posted conspicuously on the land and on the Government office of the district, also inserted for sixty days in the Government Gazette and a newspaper, if any, circulating in the district, and proof must be given to the satisfaction of the Government offices that $1,000 have been bona fide expended in money or labor upon the claim. Or a Crown grant may be got by paying $25 per acre to the Government, in lieu of representation and expenditure on the claim.

General provisions for ordinary mining claims apply to mineral claims as far as may be.

The proper representation of a "mineral" claim requires that the sum of one hundred dollars, in money, labor, or improvements shall be expended in the first six months of every year upon the claim, to the satisfaction of a Gold Commissioner, and that the owner shall have obtained a certificate from the Gold Commissioner to that effect, within six months from the location of the claim, and thereafter within the first six months in every year, and shall have recorded the certificate immediately after its issue.

An annual tax of $1 per acre, or fraction part of an acre, of every mineral claim is payable on the 31st December.

Leases of mining ground, ditch privileges, &c., may be issued, but will not in general be granted for a longer term than ten years, or for a quantity of ground greater than—

In dry diggings, ten acres;

In bar diggings, unworked, half a mile in length along the high-water mark.

In bar diggings worked and abandoned, one mile and a half in length along the high-water mark.

In creek claims, on abandoned creeks one mile and a half in length.

The regulations as to flumes, ditches, and drains need not be detailed, but it may be stated that the water taken in[illegible] or sluice has to be measured at the ditch or sluice head. No water could be taken into a ditch or sluice except in a trough placed horizontally at the place at which the water enters it. One inch of water means half the quantity that will pass through an orifice two inches high by one inch wide, with a constant head of seven inches above the upper side of the orifice.

Coal Prospecting Licenses.

A twelve months' prospecting license for 480 acres of vacant coal land in one block, may be granted by the Government on payment of $25. The licenses may be extended for another year if the licensee has actually explored for coal on payment of $50. The license is not transferable without notice being given to the Chief Commissioner of Lands and Works. If a licensee wishes to purchase the coal lands, he may do so under the land Act for $2.50 per acre.

Timber Licenses.

Unlicensed persons, except for farm or mining purposes, &c, are not permitted to cut trees on Crown lands. A timber license may be granted for 1,000 acres for four years on payment of $10 annually, and 15 cents for each tree (except hemlock) felled, payable half-yearly. No person can hold more than one license at the same time, and it is not transferable. Mill-owners cannot saw logs taken from Crown lands (in which are included lands leased at less than ten cents an acre) until the timber dues of twenty cents per thousand feet, board measure, are paid.

ABSTRACT OF THE DOMINION LANDS.

WITHIN THE RAILWAY BELT IN THE PROVINCE OF BRITISH COLUMBIA.

Approved by Order in Council dated 17th September, 1887, and amended by Order in Council dated 18th March, 1889, under the Authority of Sub-section 4 of Section 1, Chapter 56 of the Revised Statutes of Canada.

Any of the forms or affidavits mentioned in these regulations can be obtained from the Dominion Land Office, New Westminster, by writing to W. Aikman.

REGULATIONS.

These Regulations apply exclusively to the public lands of the Dominion, within what is known as the Railway Belt, in the Province of British Columbia, which lands shall be styled and known as *Dominion Lands*.

The Department of the Minister of the Interior is charged with the administration and management of the Dominion Lands.

Surveys.

The Dominion lands in British Columbia shall be laid off, so far as practicable, in quadrilateral townships, each containing thirty-six sections of as nearly one mile square as the convergence of meridians permits together with an allowance of twelve acres in each section for road purposes:

Each section shall be divided into quarter-sections of one hundred and sixty acres, more or less, together with an allowance for roads of three acres in each, subject to the provisions hereinafter made.

The Governor in Council may authorize any person to locate and build public highways, or to build public highways located in accordance with the preceding clause.

In the meantime, and until any such road shall have been located and constructed, a convenient right of way, not exceeding 66 feet in width, over any such land is hereby reserved for the use and convenience of settlers and land holders in passing, from time to time, to and from their locations or lands to and from any now existing public road or trail: Provided always, that such settler or land owner making use of the aforesaid privilege shall not damage the fences or crops of the occupier of any such located, sold or leased, land.

Every patent issued for lands subject to these Regulations shall contain a provision reserving to the Governor in Council the power to order the survey through such lands by a Dominion Land Surveyor of such public highways as he may deem expedient, and for that purpose to take any existing road, and any requisite area of land, whether the area of the roads and lands so taken be or be not in excess of the allowance for roads in any section, quarter-section or legal sub-division; also to enter upon such lands and take therefrom any gravel, stone, timber or other material required for the construction of such highway or any bridge connected therewith; and also to enter upon any such land for the purpose of cutting any drains necessary for the building of such highway.

Ordinary Sale of Lands.

Dominion lands, as the surveys thereof are duly made and confirmed, shall, except as otherwise hereinafter provided, be open for home-steading and purchase at such prices and on such terms and conditions as may be fixed from time to time by the Governor in Council: Provided, that no purchase shall be permitted at a less price than five dollars per acre: Provided also, that except in special cases, where otherwise ordered by the Governor in Council, no sale to one person shall exceed a section or six hundred and forty acres:

And provided also, that whenever so ordered by the Minister such unoccupied lands as may be deemed by him expedient, from time to time, may be withdrawn from ordinary sale and settlement, and sold at public auction or tender to the highest bidder—an upset price being fixed for the same:

Provided further, that any legal sub-division or other portion of Dominion lands which may be deemed by the Minister of the Interior of special value may be reserved from ordinary sale, and be disposed of in such manner and on such terms and conditions as may be fixed by the Governor in Council on the report of the Minister of the Interior.

Homestead Rights.

Any person, male or female, who is the sole head of a family, or any male who has attained the age of eighteen years, who has not heretofore had a homestead on Dominion lands in British Columbia, Manitoba, or the

North-West Territories, or does not hold or own by pre-emption record or otherwise, under the laws of the Province of British Columbia, more than one hundred and sixty acres of land within the Railway Belt in the said Province, shall, on making application in the form A in the schedule to these regulations, be entitled to obtain homestead entry for any quantity of land not exceeding one hundred and sixty acres, and being of the class of land open under the provisions of these Regulations to homestead entry:

The entry for a homestead shall entitle the recipient to take, occupy and cultivate the land entered for, and hold possession of the same to the exclusion of any other person or persons whomsoever, and to bring and maintain actions for trespass committed on the said land, the same as if a patent therefor had issued in his favor: the title to the land shall remain in the Crown until the issue of the patent therefor, and the said land shall not be liable to be taken in execution before the issue of patent:

The privilege of homestead entry shall only apply to surveyed agricultural lands: no person shall be entitled to such entry for land valuable for its timber, or for hay land, or for land on which there is a stone or marble quarry, or coal or other mineral having commercial value, or whereon there is any water power which may serve to drive machinery, or for land which, by reason of its position, such as being the shore of an important harbor, bridge site or canal site, or being either an actual or prospective railway terminus or station, it will be in the public interest to withhold from such entry.

Homestead Entries and Sales affecting Timber Lands.

All merchantable timber growing or being upon any land entered or sold within the limits of Dominion lands in British Columbia, and all gold, silver, copper, lead, iron, petroleum, coal or other mines or minerals, shall be considered as reserved from the said land and shall be the property of Her Majesty, except that the homesteader or purchaser, or those claiming under him, may cut and use such merchantable timber as may be necessary for the purpose of building, fencing or road making, on the land so entered or sold, and may also, under the authority of the Crown Timber Agent, cut and dispose of all timber required to be removed in the actual clearing of the said land for cultivation; but no merchantable timber (except for the necessary building, fencing or road making as aforesaid) shall be cut beyond the limit of such actual clearing; and all merchantable timber cut in the process of clearing, and disposed of, shall be subject to the payment of the same dues as are at the time payable by the holders of licenses to cut timber:

The patents for all lands, hereafter entered or sold as aforesaid, shall contain a reservation of all merchantable timber growing or being on the said lands, which merchantable timber shall continue to be the property of Her Majesty; and any person or persons now or hereafter holding a license to cut timber on such land, may, at all times during the continuance of such license, enter upon the uncleared portion of such lands, and cut and

remove such timber, and make all necessary roads or waterways for that purpose, and for the purpose of hauling in supplies, doing no unnecessary damage thereby.

Holders of timber licenses, their servants and agents, shall have the right to haul their timber over the uncleared portion of any land entered as a home-tead or purchased as hereinbefore provided, and to make such roads or waterways thereon as may be necessary for that purpose, doing no unnecessary damage, and to use all slides, portages, roads, water-ways, or other works previously constructed or existing on any land so entered sold or leased, and the right of access to, and free use of all streams and lakes theretofore used, or that may be necessary for the passage of timber; and all land necessary for such work is hereby reserved.

Whenever the survey of any township has been finally confirmed and such township opened for homestead entry, any person who has *bonâ fide* settled and made improvements before such confirmed survey on land in such township, shall have a prior right to obtain homestead entry for the land so settled on, provided such right be exercised within three months after the land is opened for settlement; and provided that such land has not been reserved or the right to homestead entry is not excepted under the provisions of these Regulations.

Every person applying for homestead entry shall appear and make affidavit before the local agent according to the form B, C, or D, in the schedule to these Regulations, as the circumstances require; and upon filing such affidavit with the said local agent or senior clerk, and on payment to him of an office fee of ten dollars, such person shall receive a receipt from the said local agent or senior clerk, according to the form J in the schedule to these Regulations; and such receipt shall be a certificate of entry, and shall be authority to the person obtaining it to take possession of the land described in it:

The Minister of the Interior or the Dominion Lands Board, upon requisition, may authorize any person named therein to make a homestead entry on behalf of any person signing such requisition and desiring to obtain such entry who shall make application in the form E in the schedule to these Regulations, on behalf of each of those whom he represents, and shall make an affidavit before the local agent or, in his absence, the senior clerk performing his duties, according to form F, G, or H, in the schedule to these Regulations, as the circumstances of the case require, and shall pay for each homestead entry the office fee of ten dollars hereinbefore prescribed for such entry, and shall receive for each fee so paid a receipt in the form J in the schedule hereto:

In case a dispute arises between persons claiming the right to homestead entry for the same land, the local agent, or senior clerk, or any person thereto authorized by the Minister of the Interior, shall make investigation and obtain evidence respecting the facts, and his report thereon, together with the evidence taken, shall be referred to the Minister of the Interior for decision, or to the Dominion Lands Board, Commissioner of Dominion Lands, or such person as may be appointed by the Governor in Council to consider and decide in cases of such disputes.

COMMERCIAL STREET, NANAIMO

Any person who has obtained a homestead entry shall be allowed a period of six months from its date within which to perfect the entry, by taking in his own person possession of the land and beginning continuous residence thereon and cultivation thereof; and if the entry be not perfected within that period it shall be void, and the land shall be open to entry by another person, or to other disposition under these Regulations by the Minister of the Interior:

Provided further, that in the case of immigrants from elsewhere than the North American continent, the Governor in Council may extend the time for the perfecting of entry to twelve months from the date thereof.

At the expiration of three years from the date of his perfecting his homestead entry the settler, or in case of his death his legal representatives upon proving to the satisfaction of the local agent that he, or they, or some of them, have resided upon and cultivated the land during the said term of three years, shall be entitled to a patent for the land, provided such proof is accepted by the Commissioner of Dominion Lands, or, in his absence, by a member of the Land Board, and on payment of one dollar per acre for the land: Provided also, that the patent therefor shall not issue to any person not then a subject of Her Majesty by birth or naturalization.

Any person proving that he has resided on the land for which he has homestead entry for twelve months from the date of his perfecting his entry therefor, and that he has brought under cultivation at least thirty acres thereof, may, before the expiration of the three years defined in subclause two of this clause, obtain a patent by paying two dollars and fifty cents per acre for the land.

Any person claiming a patent under a homestead entry shall also be entitled thereto upon making payment therefor at the rate of one dollar per acre and proving to the satisfaction of the Commissioner of Dominion Lands or the Dominion Lands Board,—

(*a.*) That he perfected his homestead entry by commencing the cultivation of the homestead within six months from the date of his homestead entry;

(*b.*) That within the first year after the date of his homestead entry he broke and prepared for crop not less than five acres of his homestead quarter-section; or if the land affected by his homestead entry be timber land, then in lieu of breaking and preparing for crop five acres he may substitute therefor the clearing and fencing of three acres;

(*c.*) That within the second year he cropped the said five acres, and broke and prepared for crop not less than ten acres in addition, making not less than fifteen acres in all; or if the land affected by his homestead entry be timber land, in lieu of cropping five acres and breaking and preparing for crop ten acres additional, he may substitute therefor cropping the three acres broken the previous year, and clearing and fencing five acres in addition, making in all eight acres cleared and fenced, three of which shall also be cropped;

(*d.*) That he has erected a habitable house upon his homestead before the expiration of the second year after his homestead entry, and has *bona*

fide resided therein and has cultivated the land for three years next prior to the date of his application for his patent.

(*e.*) That at the commencement of the third year after the date of his homestead entry, or previously, he commenced the residence on his homestead required by the next preceding paragraph of this sub-clause.

Proof of the residence and improvements required by this clause shall be made by the claimant by affidavit, and shall be corroborated by the evidence on oath of two disinterested witnesses, resident in the vicinity of the land affected by their evidence, and accepted as sufficient by the Commissioner of Dominion Lands, or, in his absence, by a member of the Land Board; such affidavit shall be sworn and such testimony given before the local agent, or, in his absence, the senior clerk performing his duties, or some other person named for that purpose by the Minister of the Interior.

Every person who has obtained a homestead entry, and who proposes to apply for a patent for such homestead, shall give six months notice in writing to the Agent of Dominion Lands of his intention to make such application, and shall produce evidence to the officer who is authorized to receive the application that such notice has been duly given.

In case it is proved to the satisfaction of the Minister of the Interior that a settler has not resided upon and cultivated his homestead, except as herein provided, for at least six months in any one year, or has failed to cultivate and crop the said land during the first two years after obtaining entry therefor, or to erect a habitable house before the expiration of the second year after such entry, and to *bona fide* reside therein and cultivate the land for three years next prior to the date of his application for patent or has made any false statement in the affidavit in support of his application for entry; or if he fails, within the time provided for in these Regulations, to apply for a patent for his homestead, and to pay for the said homestead the price specified in these Regulations, the right to the land shall be forfeited and the entry therefor shall be cancelled, and the settler so forfeiting his entry shall not be eligible to obtain another entry, except in special cases, in the discretion of the Minister of the Interior.

Provided, that in the case of illness, vouched for by sufficient evidence or in the cases of immigrants requiring to return to their native land to bring out their families to their homesteads, or in other special cases, the Minister of the Interior, may, in his discretion, grant an extension of time during which a settler may be absent from his homestead without prejudice to his right therein; but the extension of time so granted shall not count as residence.

A homestead, the entry of which has been cancelled, may, at the discretion of the Minister, be held for homestead entry by another person, on such terms and conditions as the Minister of the Interior may prescribe or for sale of the land with the improvements, if any, or of the improvements alone, in connection with homestead entry thereof, to another person.

Any assignment or transfer of homestead right or any part thereof, and any agreement to assign or tranfer any homestead right or any part thereof after patent shall have been obtained, made or entered into before

the issue of the patent, shall be null and void; and the person so assigning or transferring or making an agreement to assign or tranfer shall forfeit his homestead right, and shall not be permitted to make another homestead entry: Provided, that a person whose homestead may have been recommended for patent by the local agent or senior clerk, and who has received from such agent or clerk a certificate to that effect in the form K in the schedule to these Regulations, countersigned by the Commissioner of Dominion Lands or, in his absence, by any member of the Dominion Lands Board, may legally dispose of and convey, assign or transfer his right and title therein.

Fruit Culture.

Any person eligible under these Regulations to obtain a homestead entry may, for fruit-growing purposes, upon payment of a fee of ten dollars, and upon making application therefor to the local agent in the form L in the schedule hereto, obtain entry for any area not in excess of one quarter-section of Dominion lands of the class open for homestead entry under these Regulations, upon the following terms and conditions:

(*a.*) For each legal sub-division included in the land entered, the applicant shall, during the first year after the date of entry, clear at least four acres and plant the same in fruit trees, bushes, plants or vines, to the number prescribed in these Regulations:

(*b.*) During the second year he shall clear and plant three acres additional; and any trees, plants or vines, planted the preceding year which may have died shall be replaced:

(*c.*) During the third year he shall clear three acres additional, planting the same as in the first and second years, and replacing any trees, shrubs, plants or vines, planted during the first and second years which may have died:

(*d.*) At the end of the third year he shall have ten acres cleared and planted with fruit trees, bushes or vines:

(*e.*) Provided that the clearing and planting herein provided for may be made upon any portion of the land entered for:

(*f.*) The fruit trees, bushes or vines to be planted by the applicant as herein provided shall be in the proportion set forth in the following table, according to the variety or varieties planted:—Apple trees, standards, 33 feet apart, 40 per acre; Pear trees, standards, 20 feet apart, 110 per acre; Peach trees, standards, 15 feet apart, 200 per acre; Plum trees, standards, 15 feet apart, 200 per acre; Cherry trees, standards, 20 feet apart, 110 per acre; Currant bushes, 4 feet apart by 6 feet, 1,815 per acre; Gooseberry bushes, 4 feet apart by 6 feet, 1,815 per acre; Grapes, 10 feet apart by 12 feet, 364 per acre; Raspberries, 3 feet apart by 6 feet, 2,425 per acre; Strawberries, 1 foot apart by 4 feet, 10,900 per acre.

(*g.*) At the expiration of five years from the date of his entry the applicant, or in case of his death his legal representative, upon proving to the satisfaction of the local agent, that there are then growing upon the

land and in healthy condition the number of trees, bushes, plants or vines, as the case may be, prescribed by these Regulations shall be entitled to a patent for the land upon payment therefor at the rate of one dollar per acre, provided such proof is accepted by the Commissioner of Dominion Lands or, in his absence, by a member of the Land Board; but such patent shall not issue to any person who is not a subject of Her Majesty by birth or naturalization.

(*h.*) If any person fails to comply with any of the conditions his entry therefor shall be forfeited and cancelled, and he shall have no claim to the land whatever, except in special cases, in the discretion of the Minister of the Interior.

Grazing Lands.

The Governor in Council may, from time to time, grant leases of unoccupied Dominion Lands for grazing purposes to any person or persons for such term of years and at such rent, in each case, as may be deemed expedient; and every such lease shall contain a condition by which the Governor in Council may authorize the Minister of the Interior, at any time during the term of the lease, to give the lessee notice of cancellation thereof; and at the end of two years from the service of such notice such lease shall cease and determine.

Mining and Mining Lands.

Lands containing coal or other minerals, whether in surveyed or unsurveyed territory, may be disposed of in such manner and on such terms and conditions as may, from time to time, be fixed by the Governor in Council by regulations to be made in that behalf.

It is hereby declared that no grant from the Crown of lands in freehold, or for any less estate, has operated or will operate as a conveyance of the minerals therein, unless the same are expressly conveyed in such grant.

Ditches.

The provisions of the Dominion Mining Regulations having reference to the diversion and use of the water from any stream or lake, and the rights of way necessary for the construction of flumes and ditches to convey such water, shall apply to the diversion and use of the water from any stream or lake, and the rights of way necessary to the conveyance thereof in respect of the irrigation of agricultural lands.

Timber Licenses.

(*a.*) The word "timber" shall mean all wood and the products thereof. It shall be unlawful for any person, without a license in that behalf, to be granted as hereinafter mentioned, to cut, fell or carry away any trees or timber upon or from any Dominion lands.

Penalty for the first offence of two hundred and fifty dollars, and in default of immediate payment to imprisonment for three calendar months; and, for a second conviction, to both a fine of two hundred and fifty dollars and imprisonment for three calendar months.

Any person desirous of cutting or felling and carrying away trees or timber from Domion lands may obtain a license to that effect upon proving to the satisfaction of the Minister of the Interior that he has complied with the following provisions, such proof to be made by affidavit in the form P.

(*a*) He shall apply in writing to the Minister of the Interior for license, and shall also, if the land intended to be covered by such license be not included in any surveyed township, stake out the land sought for, by placing at each angle or corner of the lands a stake or post at least four inches square, and standing not less than four feet above the surface of the ground; and upon each post he shall inscribe his name, and the angle represented thereby, thus:—"A.B.'s, N.E. corner" (meaning north-east corner), or as the case may be; except such posts are so planted before the notice referred to in the next succeeding section is given, all the proceedings taken by the applicant shall be void; and with his application he shall forward to the Minister of the Interior a map or sketch of the land so staked out, specifying metes and bounds and showing thereon the best information in his power respecting the same; but if the land has already been included in any general survey, then the official number of the section or sections or part thereof applied for shall be given:

(*b*) He shall, after making the application for the license, publish for a period of thirty days, in the *British Columbia Gazette*, and in any newspapers circulating in the district in which the lands lie, notice of his application for timber license, and shall in such notice give the best description of the land applied for, specifying metes and bounds, and such further particulars, if any, as may be required by the Minister of the Interior.

Timber licenses (Form A) shall be granted for such area and such length of time as may be determined by the Governor in Council: the licensee shall pay to the Minister of the Interior, for the use of Her Majesty, annually, during the currency of the license, the sum of fifty dollars therefor, the first payment to be made upon the granting of the license, and subsequent payments thereafter annually on a day to be named in the license, and in default of payment of any such sum within thirty days after the same should have been paid the license shall be void.

No timber license shall be granted in respect of lands forming the site of an Indian settlement or reserve, and the Minister of the Interior may refuse to grant a license in respect of any particular land if, in his opinion it is deemed expedient in the public interest so to do.

DESCRIPTION OF VICTORIA.

POPULATION, 22,500.

Victoria, the seat of Government of the Province, and the terminus of the E. & N. Railway, is beautifully situated on a peninsula at the south-eastern extremity of Vancouver Island. The city is built on an undulating plateau, and has ample room for a population of 1,000,000. It is regarded by tourists as being naturally the most beautiful city on the Pacific Coast, and her enterprising and energetic citizens spare neither pains nor expense to enhance her natural beauty. A stranger visiting the place should drive to one of the numerous mountains in the near vicinity. Mount Tolmie and Cedar Hill are each within an hour's drive from the city. On climbing to the top the view would well repay him for his trouble. He would see a panorama of sea, mountains, forest, farm and city. If the day should be clear, he would be able to see Mount Baker and the snow-capped Olympic Mountains. To the south of the city is the public park, commonly called Beacon Hill Park. This place is being rapidly transformed into a veritable Garden of Eden. Artificial lakes have been made containing islands. On these islands and on the borders of the lake the most beautiful flowers are grown, while representatives of the numerous wild animals of the province may be seen in the various enclosures. The hill itself lies near the centre of the park, being a conical hill about one hundred feet above the surrounding country, around which is the circular race track of a little over a mile in length. The late Sir James Douglas showed great forethought in reserving this truly beautiful spot for a park. Cedar Hill, about five miles from the city, has also been donated to the city for a public park, and some steps have been taken to put it into shape. When completed it will have a drive-way winding round and round it to the top. The Gorge, on Victoria Arm, is another point of interest and beauty, and is situated about three miles from the centre of the city. The whole Arm is the great summer resort for picnicing parties. In the suburbs of the city are to be found the most beautiful oak knolls and residential spots, which are being rapidly built on. Victoria contains the most costly private residence north of San Francisco, and residences costing from $20,000 to $30,000 are to be met with on every hand. The city is well laid out, and all the streets well macadamized, while the magnificent drives through the suburbs will always render it attractive to tourists.

A wonderful advance has been made during the past year. Building improvements alone have been completed to the value of $1,500,000, of which about $100,000 has been for church buildings. The loss by fire, according to the report of the fire department, amounted to only $8,000. The electric tramway, costing, when extensions are finished, about $500.000, and having, at present, over six miles of track completed and in good running order.

There is every prospect for much greater improvements during the coming year. Plans have been prepared for the erection of a seven-story brick hotel for the Driard, and work will commence immediately. Another brick hotel costing $250,000, is to be built on Government street. The Methodist congregation will build a new church costing $60,000, and the First Presbyterian Church are contemplating building a church to cost $40,000, while the Catholic people intend to further beautify Victoria by expending $70,000 in a new

GOVERNMENT STREET, VICTORIA, B. C.

church edifice. The city council has voted $15,000 as a bonus to induce William Hewartson to establish a paper mill in the city, which must not cost less than $50,000; also $10,000 as a bonus to the Mount Royal Milling and Manufacturing Company to induce them to establish a flour mill having a capacity of not less than one hundred bbls. per diem; also to the same company, a bonus of $40,000 to induce them to establish a sugar refinery having a capacity of not less than fifty bbls. per diem. All three of these industries must be in actual operation before July 1st, 1891.

The population has been steadily increasing and when one takes into consideration the vast resources of Vancouver Island, of which Victoria is the metropolis—the timber and mineral wealth, together with the commercial situation of the city, he will rest quite assured of its future prosperity.

The climate is remarkably mild and even. During the year 1889, snow only fell on three days, but melted as quickly as it fell. Gardens are always in bloom by March 1st, and remain so until Christmas. The maximum heat during 1889 was 85 deg. Far., the minimum 24° and the mean average for the entire year 50.14. The total rainfall was 18.56 inches. The snow-capped Olympic mountains accross the straits of Juan de Fuca always cause a cool breeze to blow during the summer months, while the influence of the Pacific or Japan current renders it mild in winter. It is a remarkable fact that while there may be from two to three feet of snow within twenty miles, there is hardly ever any lies in the immediate vicinity of Victoria. As a consequence, spring sets in very early, and it is not an uncommon thing to see the gardens in bloom in Victoria, when there is deep snow within fifty miles. Fruit of all kinds, particularly pears and plums, grow remarkably well.

Owing to her position Victoria will always be a commercial centre. She enjoys telegraphic and cable service with the whole civilized world. Trains run daily to Nanaimo, the centre of the coal industry, and it is expected that during the present year the E. & N. Railway will move in the matter of extending to Seymour Narrows. There is a daily steamboat service with the cities of Vancouver and New Westminster on the Mainland, also with the principal American cities on Puget Sound. The P. C. S. S. Co.'s steamships make regular trips every five days between San Francisco and Victoria. Many of the industries of other parts of Vancouver Island and British Columbia are controlled by Victoria capital. She is the headquarters of the sealing fleet, most of which have been built and regularly fitted out every year in the city. Should the coasting regulations in regard to foreign bottoms be enforced, the shipbuilding industry not only of Victoria, but of the whole province, would be very materially increased.

Among others of the numerous industries carried on successfully in this city are :

Saw and planing mills, sash and door and blind factories, furniture and cabinet factories, piano and organ factories, barrel factories, wagon and carriage works, broom and match factories, sail lofts, machine shops, foundries, stove factories, boot and shoe factories, soap works, paper box manufactory, cigar factories, breweries, soda water and syrup factories, coffee and spice mills, flour mills, rice mills, oatmeal mills, corset works, pork-packing establishments, rubber stamp works, lithograph and chromo-lithograph printing, job printing, blank book manufactory, bookbinding, brick making, cracker bakeries, manufacturing jewellers, photograph galleries, candy factories, stone quarries,

marble and granite works. There are two daily newspapers, each of which publishes a weekly edition. There are two large and well appointed libraries, one, a free public library kept up at the expense of the city; Mr. James McGregor, L. L. D., being librarian. The other is connected with the Y. M. C. A.

Victoria is the headquarters for Battery "C" Canadian Militia, and is also the Naval headquarters for Her Majesty's fleet in the North Pacific ocean. The streets are well lighted by electric light, and both gas and electric light are furnished to houses at a very reasonable rate.

An agreement has been made with the California Electric Works for the furnishing and construction of a complete Gamewell fire alarm system of the most modern design. The work will soon be completed.

The following information is gleaned from Mayor Grant's report for 1889: Deaths during the year (1889) 262. Value of fire department apparatus, $37,-567. Salaries paid to fire department, $7,783.26. The city assessment roll shows value of real estate, $9,000,000. Total expenditure for corporation purposes during the year, $446,108.00. There were no financial failures of consequence during the year, showing conclusively a prosperous state of trade.

General Information.

There was little snow during the year 1889. Size of town lots 60x120 feet. Rate of city taxation 1.1-5 per cent. Board and lodging at hotels range from $4.50 per week upward. Laborers wages $1.75 to $2.50 per day. Mechanics wages $3.00 to $5.00 per day. The provincial museum is situated in the Government buildings. Admission free. The legal hack fare is 25 cts. per mile or $1 per hour. Table of distances from Victoria: To Vancouver, 72 miles; New Westminster, 72 miles; Nanaimo, 73 miles; Seattle, 93 miles; Tacoma, 117 miles; Port Townsend, 38 miles; Port Angeles, 18 miles; San Francisco, 753 miles; Fairhaven, 58 miles; Whatcom, 60 miles; Ladner's Landing, 60 miles. There are twenty-six teachers in the public schools of the city, with an average daily attendance of 1,300 pupils. Cost of coal $8.50 per ton, wood, $4.50 per cord. Brick, $8 per thousand. Lumber, $12 to $22 per thousand feet. Lime, $1.25 per bbl. Cost of gas, $2.00 per m. Through tickets to all points east either via C. P. R., N. P. R., or Union Pacific railway can be purchased in Victoria. Daily papers delivered, 25 cts. per week or 5 cts. per copy. Boats for family parties are to be had at $1.00 to $2.00 per day. The harbor affording excellent boating facilities. Churches of all the various denominations are well attended. Dancing schools and church festivals to suit the inclinations of all are attended nearly every night in the week. Wares from the Orient and oranges and fruits from California as well as our own most excellent hardy fruits are at all times obtainable. Two of the floating palaces that sail daily out of Victoria cost upwards of $200,000 each. The beef consumed is all home grown. The varieties of fish caught in the harbor and the waters surrounding it are ample for every purpose. Apples, pears, plums and various other hardy, delicious fruits grow in great abundance.

There are homes for many thousands on Vancouver Island. The business inducements in Victoria are excellent. Eastern capital and eastern people are needed; they can make profitable investments in real estate, manufacturing, or general trading.

ERSKINE'S EMPORIUM
132 GOVERNMENT STREET, CORNER JOHNSON, VICTORIA, B. C.
Headquarters for Boots and Shoes,

CANADIAN PACIFIC NAVIGATION CO., Limited.

This Company was incorporated in the spring of 1883, and commenced business with the steamers "Princess Louise," "Enterprise," "Otter," "R. P. Rithet," "William Irving," and "Reliance." Shortly afterward the steamers "Western Slope" and "Gertrude" were purchased, and in July of the same year, the fast and commodious steamer "Yosemite" was added to the fleet, which has since been increased by the purchase or building of the following steamers, viz: "Wilson G. Hunt," "Maude," "Premier," "Sardonyx" and "Islander," thus placing the company in a position to transact any business in connection with water transportation that the public may demand, and offering superior inducements for the public patronage, by the number of steamers being a guarantee to fulfill any undertaking in the water transportation of British Columbia.

Daily trips are made between Victoria and Vancouver; tri-weekly trips between Victoria and New Westminster, there connecting each trip, during river navigation, with river steamers of the same company, for Hope, Popcum, Sumas, Chilliwhack, Langley and way landings on Fraser River; semi-monthly trips to Fort Simpson, Metlahkatla, Skeena River, Bella Bella, Alert Bay and intermediate ports on the Northern Coast, which, when inducements are offered, are extended to Naas River ports on the West Coast and those of Queen Charlotte Islands, carrying Her Majesty's mails over these various routes. Trips are also made to Barclay Sound and other points, as occasion requires.

This company has been since its inauguration under the able management of Captain John Irving. The Board of Directors are:

T. R. Smith (President), Sir J. W. Trutch, A. Dunsmuir, Esq., R. P. Rithet, Esq., Captain John Irving (Manager), and Messrs. F. W. Vincent, G. A. Carleton and C. S. Baxter fill the positions of Assistant Manager, General Freight Agent and General Passenger Agent.

The general offices of the Company are at No. 64 Wharf street, being adjacent to their wharves and warehouses.

PROVINCIAL MUSEUM—John Fannin, Curator.

Since the publication of the last DIRECTORY, nearly one year ago, this institution has made such rapid strides that it has been found necessary to fit up the rooms in the rear of the building for the reception of minerals, fossils, and Indian curios, leaving the large central room for the display of specimens of natural history only, which display, even at the present time, is conceded to be the finest in the Dominion. The number of contributors has increased materially during the last year, and the Curator embraces this opportunity through the pages of this Directory to thank each and all for their generous assistance in the endeavor to build up an institution which, it is to be hoped, in the early future all will be proud of. For the benefit of those who have not joined the army of contributors, the following copied from the last Directory is reproduced:—

In the products of its mountains, rivers and forests—in the treasures which lie hidden beneath its stretch of six hundred miles of sea, few countries can boast of more varied or prolific resources than British Columbia, and material enough can therefore be found within its boundaries to form one of the most interesting and instructive collections in the Dominion. But the province is one of "magnificent distances," and beyond the regular routes of travel, are expensive and difficult to explore. So much so that it is somewhat beyond the

ENGINEERS, BOILER MAKERS AND SHIP BUILDERS.

means of this institution to reach out its arms to the remotest corner and gather in the stores that there await it. The Directory therefore earnestly and respectfully requests all parties, especially those residing in distant parts of the province, to collect and forward to the museum specimens procurable in their locality which in their opinion may be of interest in promoting a general knowledge of the country and its resources.

VICTORIA CITY COUNCIL, 1890.

The Mayor is elected annually. The Alderman of each ward hold office for one year. Elections in January.

The Council meet weekly, each Wednesday at 8 o'clock, in the City Hall, corner Douglas and Pandora streets. The public are admitted.

MAYOR—John Grant, Esq., J. P., M. P. P.

—VICTORIA CRESCENT, NANAIMO.

NANAIMO DESCRIPTIVE.

POPULATION 5,000.

A prosperous city on the east coast of Vancouver Island, about 70 miles from Victoria, has daily railway communication with the latter city, and is only six miles distant from the famous Wellington mines at Departure Bay. Nanaimo takes its name from the local Indian tribe, and, as a general thing, the same name is applied to the surrounding region for many miles, including the districts, (containing about 100 square miles) known on the Government map as Mountain, Cedar, Cranberry and Wellington. The city has a background covered with a heavy forest of cedar and fir, while hidden beneath are untold treasures of bituminous coal of various strata and depth, which forms the staple of Nanaimo and its neighborhood. Approached from the harbor the city appears to nestle at the foot of Mount Benson, a hill of considerable elevation, which is nevertheless several miles distant. The building of the city and the laying out of the streets were necessarily affected by the irregular conformation of the coast line, the various indentations of the harbor having caused many deflections in the streets, noticeable to a stranger landing for the first time.

Nanaimo was not built with the prospect of becoming a commercial emporium or business centre, as is commonly the case with new cities on the Pacific Coast, but was originally intended to be simply a mining village and trading post by its founders—the Hudson's Bay Company—who bought the town plot from the Indian in the winter of 1852. The harbor is safe and commodious, affording secure anchorage for shipping and excellent facilities for quays and wharves near the shore, where deeply-laden vessels may lie with safety. There are several places along the harbor line which are well adapted for the construction of dry docks, where the requisite outlay of capital would be comparatively light, owing to the adaptation of the coast. It is indeed a pretty sight to see upon a summer evening the numerous boating and yachting parties which take their recreation upon the placid waters of the harbor, or thread their course amid the islands situated from one to three miles from the city.

Amongst the most prominent incorporated institutions are the Vancouver Coal Mining Co., Mr. S. M. Robbins, manager, and the Bank of British Columbia, Mr. Geo. Cruickshank, agent. The Public Schools are well conducted and afford excellent educational facilities. The Sisters of St. Ann have a large and flourishing educational establishment for girls, conducted with their well-known ability and care. The agricultural capabilities of the district surrounding Nanaimo are but limited, although in the valleys of the Nanaimo and Millstream Rivers, chiefly on bottom or delta lands, several farmers have for years reaped remunerative returns.

Climate.—The climate differs little from that of Victoria, except that the winter may be a little longer, and the prevalence of high winds from the sea may not be as frequent as in the neighborhood of the capital. The dry weather in summer often continues without interruption for weeks together. As a whole the climate is pleasant.

ERSKINE'S EMPORIUM, 132 GOVERNMENT STREET, CORNER JOHNSON, VICTORIA, B. C.
Cheap, Durable and Stylish Boots and Shoes,

Nanaimo possesses every modern improvement usually found in cities of similar size, telephonic and telegraphic communication, gas works, literary societies, libraries and a well conducted paper, edited by the well-known pioneer, Mr. Geo. Norris.

The main source of wealth of Nanaimo is the valuable coal deposits, in addition to this excellent timber and building stone of the finest quality is to be found in inexhaustable quantities. Nanaimo is a solid city with never-failing resources, and with such a backing prosperity is assured.

Departure Bay.—This fine harbor, adjacent to Nanaimo, has accommodation for a whole fleet, and indeed it often contains many vessels, some loading coal and others waiting for cargoes. Both the Wellington and South Wellington mines have their wharves on the west shore of this bay, while on the opposite side are the Vancouver Coal Co.'s wharves at Newcastle Island. Nothing can be more picturesque than the scenery around Departure Bay and along the narrow channel (deep enough though for large ships to pass through) which connects it with Nanaimo harbor. There is a good entrance to the Gulf of Georgia on the outside.

NANAIMO.

Dominion and Provincial officials in Nanaimo see provincial matter.

Municipal Officials:—The Mayor and Aldermen (7) are elected annually in January. Council meet weekly, each Monday, in the City Hall, Bastion Street. *Mayor*:—Mark Bate. *Aldermen*:—North Ward—J.
